

## OUR VALUES

Every day, in our kitchen in the heart of nature and with our teams, we make our customers aware of a more respectful consumption of the environment and the human being. Our menu is composed of seasonal products and we maintain an ecological approach in the sorting of our waste.

We also share these values in the decoration of our house. We love to hunt, reuse, rearrange our furniture to give them a second life.

We check the origin of our products and for the maintenance and cleaning of our surfaces, we use ecological and refillable cleaning products to minimize the impact of packaging on the environment. Everything to respect the surrounding fauna and flora.

## OUR HISTORY

In spring 2021, we opened La Maison du Gasseau in St Léonard des Bois. With the different experiences of Victoire and Dorine in the kitchen and the help of the team, we offer you a timeless place offering a charming break in the heart of the Alpes Mancelles, nature site classified Natura 2000.

Our philosophy is to make you experience an unforgettable moment in a haven of peace, combining serenity, well-being and responsible cuisine.

The geographical location of the domain offers a great diversity of activities in its surroundings to delight the sports fans and the nature lovers.
